Crochet raven/crow pattern by TNGiftsUA

Thank you for choosing our pattern. I hope it will bring you a lot of fun. The creation process is not as complex as it seems at first glance. You just need to carefully follow all of the instructions below and at the end you get a raven like that.

It is easy to put him on the desk or on the nightstand in the room. I think everyone can think of where to use the crow.

The allocated framework will have additional tips to simplify the work.

If you have any questions, please do not hesitate to write to the mail in advance.

novohacka.tania@gmail.com I will be glad to answer all questions.

I wish you inspiration!)

ASSEMBLY	22 - 25

You need for work:

- such colors of yarn: **black** Kartopu 4 Mevsim for body and paws (100g/360m , fiber content 50%cotton/50% acrylic) ;
Yarn weight – **Sport - Fine**
- **gray** for beak Alize Lana Gold 800 (100g/800m , 51% acrylic/49% wool) ;
Yarn weight – **Lace**

Yarn weight look at the picture below (Yarn Weights Chart). You can use yarn of any composition that you have, but take into account the thickness. If the yarn is very thin, then the crow will be small. If the yarn is very thick, then the crow will be larger than indicated in my pattern.

- **hook 2,1 and 1,15 mm** Look at the picture below (Crochet Hook Conversion Chart);

You can use hooks 2 and 1. Everything will depend on the density of your crocheting.

- thread for stitching parts;
- needle and scissors;
- 2 half-beads or 2 beads (d = 3-5mm) ;
- copper wire Ø0,3mm;

You can take the wire thicker. I used the one that I had

- transparent glue or PVA;
- poly material for stuffing and a great imagination!))

PAWS (Make 2)

Anatomy of raven's feet for our work)

We will make a similar construction of the paws

We take copper wire (\varnothing 0,3mm),

- pliers,
- length measuring device,
- glue,
- yarn for paws,
- scissors.

79

Use this tools for start work

80

We take copper wire (\varnothing 0,3mm) in 5 pieces. Length about 40cm

81

We twist the wire around its axis so that it keeps the shape well

82

We measure the length of 6cm/2,36". This is the length from Knee to Ankle

83

Than we measure the length of 3cm/1,18". This is the length from Ankle to Toes

84

Create raven's toes. Length of toe 3cm/1,18"

85

Length of back finger 3cm/1,18"

86

The design should be similar to the shape of a raven's paw

87

Next we twist the wires together to make a solid frame

88

Each finger we twist separately

89

90

The design should be similar to the shape of a raven's paw

91

Make 2 the same foots

92

93

Materials to finish the legs

94

Starting from the Knee

95

We wet the wire in the glue and wrap the yarn

96

First, from the middle we reel, and then back

97

First, from the middle we reel, and then back

98

Do the same with other toes

99

100

When we are done with our toes, we return to Knee

101

102

This should look like a raven's paws

RAVEN'S HIPS (Make 2)

We put a hip on previously made paws

110

Sew the hip to the foot in a circle

The raven's feet should be stable so that they can withstand the weight of the body.

If necessary, you can take 6 or 7 fibers of wire.

Yay!)

You finished raven! Congratulation, my Dear friend!

I hope the pattern was easy and understandable to use and helped you create a raven like one the photo.

I also hope that if you meet an error, then let me know and I will correct it. English is not my native language, but I tried very hard to describe the creation process in detail and understandably.

If you still have questions about the pattern, you can safely write to me on the mail
